Il senzo di apertura di una cerniera a molla dipende dal montaggio

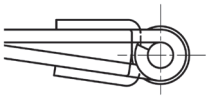

Evoluzione della coppia delle cerniere a molla in base alla posizione angolare

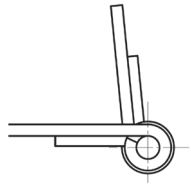

M: *coppia della cerniera nelle varie posizioni*
M (0°): *coppia quando le ali sono parallele*
M (90°): *coppia quando le ali sono a 90°*
M (180°): *coppia quando le ali sono a 180°*

Alla consegna, le cerniere si presentano come segue:

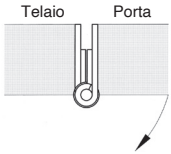

Cerniere a molla a chiudere

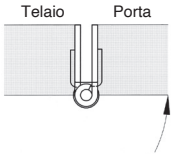

Cerniera a molla ad aprire

Montaggio e senso di apertura

Montaggio interno

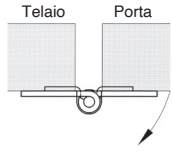

Cerniera con molla
ad aprire

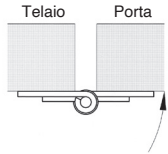

Cerniera con molla
a chiudere

Montaggio superficiale

Cerniera con molla
a chiudere

Cerniera con molla
ad aprire

La freccia indica il senso di rotazione della cerniera sotto l'effetto della molla
