

Linear bearing with inclined ball tracks

KKB

High temperature

- A linear bearing with an inclined ball track suitable for standard loads.

- Working temperature range: -20 to +200°C

- Can be used with only a light lubrication

- Sealing joints included

- Materials:

Outer housing and balls: steel

Raceway: bronze

Seal: VITON®

Advantages

- Higher working load compared to standard bearings

- No risk of marking the shaft

- Suitable for high temperatures
