

- Cap nut with collar for use with a Hygienic Usit® sealing washer Hygienic Usit®
- Material:  
Stainless steel 1.4404 (316L)  
Polished mirror finish

### Advantages

- When combined with the RDE washer, a cavity free seal is obtained for use in areas where there is contact with the product or inside aseptic isolators.
- The surface of the nuts and the bearing surface of the sealing washer have a high gloss polished finish.
- Due to its extremely low roughness, almost no dirt particles can adhere to the surface. The high gloss polished surface allows easy cleaning.
- No presence of indents or depressions on the screw head or impressions or notches under the flange.

### Accessories

- RDE sealing washer (see pages 37 to 39)
- VHEM H screw (see page 40)
- Tools (spanner, socket...) (see pages 62-63)
