

White EPDM sealing washer

RDE-WHUSS

Hygienic Usit®

- Sealing washer for Hygienic Usit® screws
- Flat metal gasket with elastomer bead for cavity-free, static sealing of screwed connections.
- Material:

Stainless steel 1.4404 (316L)

Rubber seal: 70 EPDM 291, white

For use in medical
and pharmaceutical
industries

Advantages

- The sealing washer ensures there is no risk of any cavities within a screwed connection.
- Residues or cleaning liquids cannot settle unnoticed thus avoiding any contamination by germs or bacteria.

Use

- Even if, when tightening the screw connection, the elastomer bead cannot be overloaded by the integrated stainless-steel washer, any material will arrive sooner or later at the end of useable life. Fragments could then be found in foodstuffs. The sealing materials used and the colours used make it easy to detect these unwanted elements.

Application

- Mainly used in medical and pharmaceutical industries

Warning

- The Hygienic Usit washer cannot guarantee a cavity-free watertight screwed connection unless it is used with screws or nuts from the Hygienic Usit® range.
